The right size of your Micro Crampons does not only depend on your shoe size! To ensure a perfect grip on the shoe and therefore an unrestricted use it is also neccessary to check the dimension and the structure of the shoe itself.

Due to the different shoe assemblies and fit variants / brands, we have developed the table below for absolute fit so that you can be sure that your Micro Crampon fits and holds perfectly on your individual shoe.

## step 1

Check the dimension of your shoes, by taking the measures L and C:

- **L** = **Length** of the shoe, measured at the sole
- **C** = **Circumference** of the shoe, measured at the top 1/4 of the shoe

## step 2

Choose the right size of your Micro Crampons from this table;

horizontal: circumference (C) - vertical: length (L)

C - Circumference (cm)
